Psychiatric Rehabilitation Program

What is S.T.A.R.S.?

STARS is a psychiatric rehabilitation service that promotes recovery, full-community integration, and improved quality of life for persons who have been diagnosed with a serious mental health condition. S.T.A.R.S. promotes and encourages the overall wellness of each individual and assists them in reaching their full potential.

Psychiatric rehabilitative services are collaborative, person directed, and individualized. The service focuses on helping individuals develop skills and access resources needed to increase their capacity to be successful and satisfied in the living, working, learning, and social environments of their choice.

Who can attend?

Individuals in McKean County, PA who are 18 years of age or older and have been diagnosed with severe mental illness, such as schizophrenia, bipolar disorder, major depression, etc., are the primary recipients of psychiatric rehabilitation services.

Helping people become more "successful and satisfied in living, working, and learning in social environments of their choice."

S.T.A.R.S.

can help consumers:

- ★ Determine what they have and what they need to achieve goals.
- ★ Choose, achieve, and keep their goals depending on their wants and needs.
- ★ Determine the living, working, learning, and social roles they wish to achieve.
- ★ Choose groups that will assist them with developing the skills and/or supports that are unique to achieving their goals.

RESEARCH SHOWS...

people are more apt to change positively when they:

- ★ are in a positive relationship;
- ★ set their own goals;
- ★ are taught skills;
- ★ receive support;
- ★ have positive expectations or hopes for the future;
- ★ believe in their self efficiency.
