Formulary Drug	\$60 Copay	
Non-Formulary Drug	\$100 Copay	
Preventive Drug (Prescription Drugs classified as a Preventive Drug by HHS)	\$0 Copay (100% paid)	

CVS Maintenance Choice Voluntary

This Plan allows for purchase of a 30-day supply of maintenance drugs at any retail pharmacy. A 90-day supply of maintenance drugs must be purchased at a CVS retail pharmacy only or through the mail order program. For additional information, please contact the Prescription Drug Card Program Administrator.

Dispense as Written

The Plan requires pharmacies dispense Generic Drugs when available unless the Physician specifically prescribes a Formulary or Non-Formulary Drug and marks the script "Dispense as Written" (DAW). Should a Covered Person choose a Formulary or Non-Formulary Drug rather than the Generic equivalent when the Physician allowed a Generic Drug to be dispensed, the Covered Person will also be responsible for the cost difference between the Generic and Formulary or Non-Formulary Drug. The cost difference is not covered by the Plan and will not accumulate toward your Out-of-Pocket Maximum.

Advanced Control Specialty Formulary

Advanced Control Specialty Formulary (ACSF) is a moderately aggressive approach and presents specialty trend management. The formulary utilizes formulary exclusions, new-to-market (NTM) drug management and tiering strategies to help ensure clinically appropriate utilization and cost-effectiveness of specialty therapies.

CVS True Accumulation Program

Some Specialty Drugs may qualify for third-party copayment assistance programs that could lower your out of pocket costs for those products. For any such Specialty Drug where third-party copayment assistance is used, the Covered Person shall not receive credit toward their maximum Out-of-Pocket or Deductible for any Copay or Coinsurance amounts that are applied to a manufacturer coupon or rebate.

PrudentRx Copay Program for Specialty Medications

Copay assistance is a process in which drug manufacturers provide financial support to patients by covering all or most of the patient cost share for select medications - in particular, Specialty Drugs. The PrudentRx Copay Program will assist individuals in obtaining copay assistance from drug manufacturers to reduce an individual's cost share for eligible medications thereby reducing out-of-pocket expenses.

If you currently take one or more medications included in the PrudentRx Program Drug List, you will receive a welcome letter and phone call from PrudentRx that provides specific information about the program as it pertains to your medication. All eligible persons will be automatically enrolled in the PrudentRx program, but you can choose to opt out of the program. You must call (800) 578-4403 to opt-out. Some manufacturers require you to sign up to take advantage of the copay assistance that they provide for their medications, in that case, you must speak to someone at PrudentRx at (800) 578-4403 to provide any additional information needed to enroll in the copay program. PrudentRx will also contact you if you are required to enroll in the copay assistance for any medication that you take.

If you do not return their call, choose to opt-out of the program, or if you do not affirmatively enroll in any copay assistance as required by a manufacturer you will be responsible for the full amount of the 30% Copay on Specialty Drugs that are eligible for the PrudentRx program.

If you or a covered family member are not currently taking but will start a new medication covered under the PrudentRx Copay Program, you can reach out to PrudentRx or they will proactively contact you so that you can take full advantage of the PrudentRx program. PrudentRx can be reached at (800) 578-4403 to address any questions regarding the PrudentRx Copay Program.

The PrudentRx Program Drug List may be updated periodically by the Plan.

Copays for these medications, whether made by you, your plan, or a manufacturer's copay assistance program, will not count toward your Deductible.

Because certain specialty medications do not qualify as "essential health benefits" under the Affordable Care Act, member cost share payments for these medications, whether made by you or a manufacturer copay assistance program, do not count towards your Out-of-Pocket Maximum. A list of Specialty Drugs that are not considered to be "essential health benefits" is available. An exception process is available for determining whether a medication that is not an essential health benefit is Medically Necessary for a particular individual.

PrudentRx can be reached at (800) 578-4403 to address any questions regarding the PrudentRx Copay Program.

Mandatory Specialty Pharmacy Program

Self-administered Specialty Drugs that do not require administration under the direct supervision of a Physician must be obtained directly from the specialty pharmacy program. For additional information, please contact the Prescription Drug Card Program Administrator.

Specialty Drugs that must be administered in a Physician's office, infusion center or other clinical setting, or the Covered Person's home by a third party, will be considered under the Medical Benefits section of the Plan. Those drugs that can be self-administered and do not require the direct supervision of a Physician are only eligible under the Prescription Drug Program.

Preventive Drug means items which have been identified by the U.S. Department of Health and Human Services (HHS) as a preventive service. You may view the guidelines established by HHS by visiting the following website:

https://www.healthcare.gov/what-are-my-preventive-care-benefits

For a list of Preventive Drugs, contact the Prescription Drug Card Program Administrator identified in the General Plan Information section of this Plan.
